RODRIGO STOCHETTA

FULL STACK WEB DEVELOPER

SUMMARY

I consider myself a person with initiative, responsible and with a lot of capacity. The passion for technology led me to the wonderful world of programming. My objectives are to enter a company that allows me to develop professionally and be able to demonstrate my capabilities.Challenges motivate me. I constantly seek to expand my knowledge and I never feel satisfied with what I have learned.

PROFESSIONAL EXPERIENCE

Front-End & Back-End Developer

2023 - 2024 - Digital House - E-commerce "Patitas"

I worked in the role of web developer with special participation in Back-End development in an Integrative Project on Digital House. The Project was created under the MVC design pattern, using relational SQL data and the use of Sequelize, dynamic HTML and creation of its own APIs. Since this is a team effort, the Scrum methodology and the use of Git and GitHub are used.

EDUCATION

Full Stack Web Developer

2023 - 2024 - Digital House

Architect

2007 - 2012 - Universidad de Palermo

EXPERIENCE

Commercial Manager

2010 - 2023 - Frigorífico Stochetta

Tasks:

Product advertising - Customer relationship management - Web sales - Purchasing manager - Marketing and sales strategies, among others.
