Spanish - Native

SUMMARY

I consider myself a proactive, responsible person and open to new learnings. The passion for technology led me to the wonderful world of programming. My main objective is to work for a company that is searching for new talents and so being able to continue growing both professionally and personally. I like facing new challenges and I'm constantly seeking to expand my knowledge to stay updated.

PROFESSIONAL EXPERIENCE

Front-End & Back-End Developer

2023 - 2024 - Digital House - E-commerce "Patitas"

I worked in the role of Full Stack Developer in an Integrative Project on Digital House. The Project was created under the MVC design pattern, with JavaScript, dynamic HTML, CSS, Node.js, relational SQL data, Sequelize, and creation of APIs. Since this is a team effort, the Scrum methodology and the use of Git and GitHub are used.

EDUCATION

JAVA Backend Developer
